Type of Comment O

Objection

**Type** neighbour

Other comment have already addressed the unreliable "proof" that the land has been lived on for a period of 10 years with no objections. This is clearly not the case so cannot be used as a reason for this to continue to happen or be expanded on! This site is unsuitable to be used as a traveller site or housing site as the road between Great Bourton and Cropredy is already extremely busy and dangerous at school drop offs and pick up. Cars also drive very quickly on this short stretch of open road! The villages have very few amenities and the gp surgery can't accommodate all of its current residents so adding any further would be unwise. The other big issue in this areas is flooding, creating anymore hard standing would add to this problem. I do find it hard to understand why Cherwell district council granted permission for the western power application to carry out works to the supply to this site. This was very clearly carried out as the owner must be confident that he will eventually get permission to have what his wants on the site. Great Bourton has expanded significantly in recent years which I believe should be considered more than it's fair share for many years to come. Hopefully this application will be denied and restore the communities faith in its local district council.
