Application no. 20/03140/CLUE – Stables on land Gt.Bourton

Dear Mr Neville

I have commented on the appropriate page on the CDC site for this Application for a Lawfulness Certificate. I did not attach two photographs I have, taken at the end of May which may be relevant to the vast amount of information I am sure you have on the inappropriate request for this certificate. I take the liberty of attaching these two photographs. The one shows the destruction of the ridge and furrow and the standing water on this land, and also I believe the unlawful rerouting of the designated Right of Way through the subject site.
