Comments	<input type="text" value="This will attract a lot of traffic into a small residential area and the junction can already be very busy to get in and out of. An alternative access / traffic control should be considered if this application is successful. I am concerned about the early and late opening hours; timing of deliveries and noise levels created as a result, especially if refrigerated lorries keep engines running. There are sufficient large supermarkets nearby, a smaller supermarket would be much more suitable. There is also a small Spar within walking distance, this could have a significant impact on their business which could have an affect on our local post office provision."/>
