Comments	<input type="text" value="We object to this application as the second of the dual purposes stated for the development is for use as a toilet and shower block and campsite for motorcyclists. This will be sited adjacent to our land and thus represents a loss of our privacy. We are also concerned that use of the area for camping by motorcyclists could have a significantly negative impact on the environment due to water run-off and the risk from oil spills from the parked motorcycles. The proposed construction is also large and out of character with the area. The area of the proposed development is a rural conservation site and the development will be of considerable detriment to its character. We have no objections if the owners are to use the site solely for agricultural purposes."/>
