Comments	<p>I most strongly object to this application on the grounds of Highway Safety and an application for the erection of a large barn, which is clearly not intended solely for agricultural use. The entrance to the proposed camping site is in the dip between two steep hills, which is extremely hazardous to traffic, as well as the many walkers using the footpath and those on horseback. It would be hard to envision a more dangerous entrance for those wishing to access the proposed camping site as it is an almost 'blind' entrance due to the bend in the road. In the applicants own words,"the ability to hold Biker Rallies and Large Group Overnight Events could attract hundreds of bikers to our pub at any given time..' It is clear that the planning permission for a barn for 'agricultural' use is a sham. Given that this is a conservation area, it is not in line with the aims of a conservation area and would be hugely detrimental to the character of our peaceful village. It would have a negative impact on the environment due to the water run off, risk of oil spills and light & noise pollution from campers. The favourable public comments that the applicant alludes to are not from anyone who currently resides in either Parish. I would also ask for any/all outstanding issues with the current owners of The Pheasant Plucker's Inn to be resolved before this application is considered. Please do refer to the history of Mr G Noquet since acquiring The Bishops Blaize (The Pheasant Plucker's Inn).</p>
