Comments	<input type="text" value="I believe that the term Agricultural Barn Store may be misleading when used for this application. The proposed building is in fact a Toilet and Shower amenity block by Mr Noquet's own admission. It is to be noted that no detail has been provided as to how sewage and waste water emanating from this block will be dealt with. In addition, the siting of this proposed building in my view is harmful to the Conservation Area Status of this part of the Sib valley. There is precious little information as to how the block is to be accessed but the assumption is that it is from Hawkes lane which, as numerous other residents have pointed out, is problematic and highly unsafe in highway terms. I am greatly concerned that the site has already been cleared and terraced which has involved the felling of a number of trees. I have been unable to find any record on the CDC site of appropriate notifications relating to Arboricultural work in conservation areas."/>
