<b>Comments</b>	<input type="text" value="I wish to object to the application on the following grounds: Impact on the Conservation Area: The location, known as the Sib Valley, lies at the heart of the conservation area and is an integral part of the conservation area. The proposed erection of an agricultural barn materially compromises the openness, character and appearance of the Sib Valley. Site access: The road where the site would be accessed regularly by 30+ motorcycles is narrow and already struggles with the existing traffic load - and given its proximity to schools there is a very real issue of safety to children. The access on a dangerous blind bend at the bottom of a steep sided valley on a road is inappropriate. There is no sensible access that can be provided to this site for the volume of traffic proposed. Impact on ecology: The provision of a new hardstanding for 30 motorcycles, together with the designated camping provision, is likely to have a negative impact on the nature and character of the conservation area as well as a negative impact on the ecology of the area. Impact on the Sib Brook: There will be a negative impact on the Sib Book, which is immediately adjacent to the proposed agricultural barn, in the form of potential contamination associated with both initial building activity and subsequent use, which is inevitable when used as a motorcycle / camping location. Pollution: There is also likely to be considerable disruption to this quiet and picturesque area in the normal of anti-social hours of traffic, lighting and noise pollution."/>
