Dear Sir,

This must not be allowed to happen, as it is in a conservation area.

The gateway is on a blind bend half way down the hill.

This is a busy road at certain times of the day e.g. People going to and from the shop in the perris, taking children to & from school, and people going to work, plus the fact that buses use the road on a regular basis. This is a dangerous place to have an entrance to a camp site, or any other place.

Children also walk past the gateway to school, so they would also be in danger from

Cars ect going in and out.

The Village is not the sort of place for a camping / caravan site. because it is in a conservation area and the view across the valley would be spoilt.

yours Sincerely,

(MRS).
