Dear Sirs,

I wish to object to the building of 300 further houses in Upper Heyford.

Having read the Flood Risk Assessment/Drainage document submitted as part of the planning application, it is clear that no regard has been taken by the authors of that document with regard to the excessive run off, caused many times a year, by the current buildings in Upper Heyford to the stream known as "Gallos Brook". Gallos Brook cannot cope with the current run off of water, and floods the B4030 and the hamlet of Caulcott several times a year. The excessive run off of water from Upper Heyford causes the Gallos Brook to flood mixing with foul water and polluting the river course. The Gallo Brook has also caused several of the houses in the hamlet of Caulcott to flood.

Until mitigation of the flooding in Caulcott is remedied no further houses can be allowed to be built in Upper Heyford.

Kind regards,

Bernard Whyatt
5 South Street
Caulcott
OX25 4NE
