Comments	<input type="text" value="I fully support this revised design of the previous planning application. The applicant has responded positively to the changed funding circumstances, brought about by the coronavirus crisis, whilst maintaining the principle core functions of the previous design. The applicant has also productively used the opportunity of this revision to respond to near neighbour concerns about the close proximity of parking. I particularly like the reorientation of the building to improve the public entrance and to reduce the scale and the impact of the building when viewed from the near-by residential properties. Best regards Rowland Bratt"/>
