

Comment for planning application 21/00343/F

Application Number	21/00343/F
Location	Land East Of The Leys Adderbury
Proposal	Erection of 2 dwellings
Case Officer	Bob Neville
Organisation Name	NICK FENNELL
Address	Archway Cottage,Tanners Lane,Adderbury,Banbury,OX17 3ET
Type of Comment	Objection
Type	neighbour
Comments	<p>Ref: Planning Application (Ref: 21/00343/F) for two x 5 bedroomed detached dwellings within the extended garden of The Leys House, The Leys, Adderbury, OX17 3ES There is insufficient difference between this application and the previous one that was withdrawn. Although the number of houses applied for is reduced from 3 to 2, the third plot is still included in the documents, presumably awaiting another application in the future? The status of the ownership of the concrete access road is still being disputed by the Parish council 1. Of primary consideration is that this land is outside of the agreed Residential Settlement Boundary as agreed in the Adderbury Neighbourhood Plan (ANP) Both the ANP and the Local Plan state that such a scheme ought not be supported. 2. The bottom part of the plot is in the flood plain 3. Access, for say a 40% increase in ongoing traffic, would be down the narrow and congested Tanners Lane, which regularly requires traffic to back up to allow passage past residents' vehicles. This then flows into The Leys, which is a single track lane with no path and only 290cm wide, and left onto a concrete road with no passing or turning space all the way down to the Sor Brook. Emergency vehicles might struggle to get access The lane is regularly used by walkers with children & dogs accessing the public footpath and the Lucy Plackett playing field There is a sewage works at the very end of this concrete road which is occasionally accessed (with difficulty) by sewage and ancillary vehicles 4. Access to Construction traffic. Neither Tanners Lane nor The Leys could handle the heavy vehicles required. In recent years sewage traffic has caused damage to verges, doorsteps, and most notably to underground drainage systems. The cottage called 1 The Leys could suffer actual or vibration damage in that it is only 40cm from the road which at this point is only 290cm wide (with no path) 5. Public Footpath diversion - this has been well covered in objections from the footpath people 6. Local open spaces - the proposed development lies next to the former railway embankment, which is a haven for wildlife. The concrete road is also part public footpath The ANP AD 4 states To be supported development proposals on land within any of the Local Open Spaces must demonstrate that, unless it can be clearly shown that the land is surplus to requirements as Local Open Space, that any loss of active or passive recreational provision in a no less convenient location for users 7. Green infrastructure - the ANP states: The ANP AD2 defines the Adderbury Green Infrastructure Network around and within the village, as shown on the Policies Map. The Network comprises a variety of green infrastructure assets, including informal open space and Local Green Spaces, allotments, playing fields, assets of biodiversity value and children's play areas, footpaths, bridleways and cycleways. Development proposals on land that lies within or immediately adjoining the defined Network must demonstrate how they maintain or enhance its integrity and green infrastructure value, by way of their landscape schemes, layouts, access and or through equivalent alternative provision nearby. 8. This proposed development is within the Adderbury Conservation Area It would not comply with the ANP Policy AD9: M a n a g i n g Design in the Conservation Area, especially in regard to local stone rather than brick, and making good all walls and other disrupted areas</p>
