Subject: Planning in Burdrop Display 21/00477/F

Dear Mr. Smith:

I note the owners of the Pheasant Pluckers Pub in Burdrop, Oxfordshire, have applied, for a second time, for planning permission for a large barn next to their vineyard.

We would like to **object** as there is no precedent for building on this site and any waste would flow into the Sib. Valley which is in a Conservation Area. We most strongly object to the whole project but especially to the felling of trees and taking out of the hedgerow beside the property, in the valley.

We understood that in order to fell a tree where the diameter of the trunk is more than 4", is against the law. In this case several trees with trunks larger than this have been taken down and we object to this. When we took out some small plum suckers next to the Village Pond we had to get planning permission!!

Sincerely
Ivor and Sally Hopkyns
