<b>Comments</b>	<input type="text" value="The proposed barn is situated centrally in an integral part of the Conservation area and the development on this sensitive site would create a precedent for further future development. All previous applications in the Sib Valley have been refused by CDC . The proposed agricultural barn/store lies within the Sib Valley and would be highly visible from surrounding land. The provision of a septic tank is included but no site is shown for this or any other mains services or vehicular access to the site. The application states that no trees or hedges on the site will be affected but removal of trees and hedges has already been undertaken. We strongly object to this Planning Application and ask CDC to refuse it."/>
