<b>Type of Comment</b>	<input type="text" value="Objection"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="The village has had 2 estates recently built in the past few years. This has brought problems of - excess water on roads -problems with parking, resulting in parking on grass verges. Buses have difficulty on occasions of using the high street -we have a very limited bus service, not operating in the evening. The use of cars is the result. -Despite government initiatives in creating a greener society, excessive building in rural areas means additional cars, more lighting at night. - - The proposed building plot will disrupt ecology yet again. - the village has been building on areas within the confines already built up areas and this has been approved previously with the Neighbourhood Plans created a few years ago. -this is gradual erosion of areas identified as villages. Where does this end. Are we going to have estates continually being built until we look like Banbury? -the infrastructure cannot sustain the continual building. Roads are already choking going into Oxford and Banbury. -are planning applications ever refused permanently? The companies making the profit are the building contractors. If refused they reapply time after time until they get permission."/>
