Comments	<input type="text" value="I would like to register my strong objection to this proposal. Myself and my family have lived in Hornton since 2006. The noise levels, as the events have increased in size, and frequency of Motocross events have grown significantly in this time, impacting negatively on our quality of living at weekends. The notion that these could increase even further is unacceptable. The Design and Access team's statement that the proposal would benefit the local economy is lacking in evidence and, indeed, there have been several objections to the proposal from local businesses. I would also dispute the fact that the noise levels of the events is acceptable during race days - this is not the reality for villagers - and would ask that this very important aspect be considered further. I am also deeply concerned about the impact on traffic and the safety of drivers and pedestrians locally - access to the event site is by narrow and winding country roads/lanes (without pavements) which are not intended for high volumes of traffic. In addition, many locals, including children, cycle on these roads; the volume of traffic from the Motocross events has added a significant risk to cyclists too. I hope that you give consideration to my objection and would urge you to reject the proposal."/>
