Comments	<input type="text" value="Hornton village would be subjected to unacceptable levels of noise pollution from regular motorcross events. The topography of the village being situated in a valley, means any such noise would be applied throughout the village at an awful volume. It is in a conservation area and it is a beautiful, peaceful village. Wildlife seen presently in our gardens, eg muntjac deer, rabbits and a variety of birds etc., could well be scared by the constant noise from possible larger events. Our peace would certainly be shattered. Would this also affect the value of property in the area in a negative way? No thank you is our definite answer."/>
