Comments	<p>I am writing to object to the application 21/00517/F. When the events are being held I am not able to sit outside or indeed hold a conversation at normal level because of the noise from the motocross bikes. Depending on which way the wind is blowing the noise levels increase even more. The amount of traffic will increase also, the majority of the vehicles are large motorhomes which have to be given way to by villagers, children and adults on bicycles, horseriders who are supposedly meant to be enjoying the peacefulness of their village surroundings and clean air. The address stated on the application is Stratford Road A422. There is no entrance to the site off the A422 but off towards the village of Hornton on a single track road, NOT suitable for heavy or a lot of traffic. How can planning permission be granted for an event that has already broken the rules? Also with regards to the environment, where does all the waste oil , fuel etc go? Have the local streams / waterways ever been checked before and then after an event to see if they are polluted with oil and fuel? What does Agricultural grazing mean ? Surely if events are to increase by that much and by 'Soft Landscaping' how is any grass suitable for agricultural going to grow? I strongly object !!</p>
