Comments	<input type="text" value="Please find attached, on behalf of Hornton Parish Council, a brief biodiversity report, submitted at the point CDC were inviting the track to make an LDC application in 2020. This report is directly relevant as it shows the rich and fragile biodiversity directly alongside the environmental wasteland that is the track. Not conducted in the depths of winter (unlike the applicant's sub-optimal submission), it indicates the rich, natural diversity that should be present, but is no more. Sadly, there appears to be no attempt by the track landowner or operator to mitigate the damage done, nor evidence of any awareness or acknowledgement of the harm already inflicted on what should be a naturally diverse landscape bordering an AONB and a designated Conservation Area."/>
