<b>Comments</b>	<input type="text" value="The number of days that this application is asking to be extended will really impact life in surrounding villages. The weekends currently allow respite from the increasing traffic volume on the A422, including industrial traffic to the tip and to and from the quarries. The type of vehicle accessing the proposed site will be larger trailers and camper vans and be very impactful on villages on the A422 through congestion, noise and pollution adversely affecting quality of life and health. Mixing this with farm vehicles will also create increased congestion and too much volume for the relatively small road to cope with. There is also then a further impact on the minor roads off the A422 where vehicles may not even be able to navigate. There appears to be no positive impact on the local economy or community."/>
