Comments	<p>Creation of a motocross track and soft landscaping scheme and the change of use of agricultural land to hold moto-cross events including set-up, take down and private practice sessions, with associated camping site, for up to 65 days per year and agricultural grazing (retrospective) I strongly object to the above application on the grounds of Ecology (I note the correspondence from Tony Brummell 12 March 2021 "I am not an ecologist but I can see there could be potentially adverse ecological impacts from what has been done) Conservation & biodiversity. I note, as many have written far more eloquently than I the many 'birds of high conservation concern.' In response to the consultation (30 March 2021).... "We would like to see further evidence which demonstrates that the provision meets local needs. There is a lack of supporting evidence as to whether the proposed increased usage of the site addresses existing deficiencies in provision"....I can categorically confirm that as a resident of 14 years in Hornton, there is no local need (retrospectively or otherwise) for further erosion of infrastructure, noise and disruption on land bordering an AONB and a designated Conservation Area.</p>
