Comments	<input type="text" value="No further substantive comments. The applicant will require consents under s.23 Land Drainage Act for all works on and discharges to the watercourse. These consents are in addition to any Planning or other consents that may be given. Given the nature of the site and the proposed development there will be a particular need for measures to prevent silt and other pollutants from entering the watercourse. Such measures will require ongoing maintenance to ensure they remain effective."/>
