Hi Gemma,

I have looked at The Landscape Plan and although it shows where new trees are proposed there are no details regarding the species of tree, the size to be planted etc. In addition, the offsite enhancement map only really shows the flower rich margin/plot creation area. All the other features shown in the legend are largely off the map.

I don't know whether the applicant has forgotten to include these details or if somehow they have not been out on DEF or perhaps I am missing something.

Thanks,

Caroline
