Comments	<p>I would be grateful if you would consider the following points. Given these points, I would strongly urge you to reject this application to protect the local environment. Specific to the latest submission by the applicant:</p> <p>The addition of some trees will do little/nothing to mitigate the unacceptable noise levels that will be generated. The comprehensive noise assessment previously submitted by Hornton demonstrates this, in stark contrast to the superficial assessment provided by the applicant.</p> <p>Given the ongoing changes made to the track over a number of years, documented in previous submissions by many residents in Hornton, my confidence in this screening being retained and maintained in the future is extremely low</p> <p>A further point is the premise, as per the original application and the planning review, that the track is for "local use". The track is already marketing hosting a VMX Championship event on 22 and 23 July 2023, booked by a club from South Wales!!</p> <p>In summary, I strongly urge you to protect the very special environment in this area and reject this application - an application that is solely centred on a commercial proposition with significant and lasting detriment to the environment.</p>
