Comments	<p>After looking at the updated planting proposal I see no way that additional (unspecified variety) of trees will do anything to mitigate the noise nuisance that is created during the operation of the MX track. Also the planting of additional hedging will do nothing to mitigate the noise nuisance. It will continue to disrupt the lives of the Hornton inhabitants during the operation of the track. The limit of 65days operation basically permits the entire summer period so that in no way limits the impact.</p> <p>Given previous enviromental performance of the landowners I have little faith protection steps will be adherred to. I also suspect that they will be undone by the attendees of the MX events.</p>
