

Notes

This drawing should be used in fulfillment of its original purpose and in conjunction with the agreed survey specification. Background mapping should be used as a guide only. Remotely surveyed features such as offsite buildings and heights should be used as a guide.

Features may be omitted where obscured or inaccessible at the time of the survey. Identification of utility/statutory authority plants and apparatus has been made by visual inspection only. All dimensions should be checked on site prior to design and construction.

Unless stated, boundaries have been surveyed according to a physical definition and no assumption or representation is given in respect of legal boundary position.
