Comments	<input type="text" value="I don't object to the owner developing their property but this proposal is a large alteration turning a small terraced cottage into a substantial house. The lane is effectively a single track road and I can't see any rear access to the property so everything would have to go through the front door and the lane would become congested with materials and builders' vehicles. It seems a large project involving many workers and parking is difficult already, the lane being used by residents and by patients visiting Sibford Surgery the carpark of which often spills over. Deliveries of building materials might block the road entirely and inconvenience surgery traffic and residents, it being very difficult to turn round. The lane isn't suitable for lorries at all. The scale of the development is really all I'm worried about which looks like a huge problem for neighbours."/>
