Comments	<input type="text" value="I wish to strongly object to this Planning Application on the following grounds: 1. The Parish has supported this proposal ignoring the fact that the parking facilities are inadequate and have been misrepresented on the block plans with incorrect measurements. 2. This is a blatant attempt to build another dwelling for financial gain on an already overdeveloped site, the owners can easily live and stay in the main residence that could be simply adapted by installing a stair-lift or elevator. 3. The Chairman of SGPC supported the application as did other members without questioning the pre-advice from Highways and the obvious fact that the owners had exaggerated parking facilities and any real need for another House in their grounds, this smacks of cronyism. 4. Most elderly people are not given permission to build another house in their grounds just because they struggle to get upstairs when their existing house is worth at least 1 million. If this application is not rejected there should be an Inquiry into why not?"/>
