Comments	<input type="text" value="I would like to strongly object to the placement of billboard 1 - looking at the plans it seems to be situated within the boundary of the spiny in front of my home. To my knowledge these trees have preservation orders on them and should be left undisturbed. The area supports so much wildlife and should be left undisturbed the boundary hedge has already been removed resulting in a huge loss of privacy for my property and a massive increase in traffic noise along with the destruction of habitat. I also object to any sort of flag advertising along the boundary of the spiny as this would cause a nuisance in the wind with excess noise generated by flapping of the flags and banging of metal attachments on the poles."/>
