<b>Type of Comment</b>	<input type="text" value="Comment"/>
<b>Type</b>	<input type="text"/>
<b>Comments</b>	<input type="text" value="The site is shown to be in an area where there are instances of high surface water flood risk. This indicates there may be pathways to local underground receptors and a risk of aquifer contamination. It is essential that the Environment Agency are consulted to input substantively to the Scoping Opinion. No other land drainage/flood risk comments."/>
