Comments	<input type="text" value="We object to this planning application as it will have a serious effect on the character of two villages namely, Great Bourton and Little Bourton which are linked by Foxden Way. Foxden Way is a single track road used extensively by local residents as a pedestrian route between the villages. In our view the increased traffic, which would be inevitable with the proposed development, would constitute a danger to pedestrians. Foxden Way would become unsafe. It is already pretty challenging if, for example, a driver meets a large piece of farming machinery coming the other way (there are a number of local farms). It would be very troublesome to have increased traffic on Foxden Way. All residents in the proposed development would presumably need cars as there are very limited local amenities within the 2 villages. In summary, we object to this planning application on the grounds of adversely affecting the character of the 2 villages, having a serious adverse effect on road safety and causing a serious inconvenience to road users."/>
