Comments	<input type="text" value="foxden way is no more than a single lane road used by many pedestrians, horse riders, etc and cannot cope with extra traffic that this development would generate. there are blind bends at both ends at little bourton and great bourton? the road is used by large farm machinery that takes up the whole road with very limited passing places, extra traffic is not desirable? there is no public transport from great bourton so any prospective tenants would have to own a vehicle ?"/>
