To whom it may concern

Planning Application 21/00922/OUT

I object to the above planning application for the following reasons:-

1. Great Bourton and Little Bourton which are very small communities to the north of Banbury have in recent years had a considerable number of mixed housing developments built either within the villages themselves or within several miles of the villages. The estates on Southam Road and Warwick Road have made vast disruption to amenities in schools, GP surgery, police presence and unacceptable rise in traffic congestion and, of course, the Garners Field development within GB itself. As residents we have not to my knowledge received any benefits. The roads have potholes which take months to be refilled. The streets are not cleaned or weeded and litter cleaning is a thing of the past.
2. A good proportion of existing roads are little more than one track lanes I.e. Crow Lane, School Lane and Foxden Way itself. These roads have farm machinery using them several times a day which in itself currently cause jams with delivery vehicles, parked cars and refuse collections. This already causes problems for pedestrians.
3. There is no regular transport links to Banbury and the proposal does not take account of the extra numbers of vehicles generated by these proposed homes.
4. Foxden Way linking the 2 villages is the only level straight piece of road in the vicinity. It is currently used by pedestrians as a means of daily exercise, plus motorised carriages and schoolchildren to and from school, mothers with pushchairs and horse riders. As you must be aware, there is no pavement anywhere along the road.

5. Great Bourton is a Category B village and the Local Plan only allows for development within the built up limit of the village in the form of infill and conversions.

These are my objection to the Planning Application 21/00922/OUT I trust that you will take them into account and dismiss this Application
