Comments	<input type="text" value="We wish to object to the proposed development on Foxden Way, Great Bourton. This proposed development will significantly impact on the traffic on both Foxden Way, School lane and Crow Lane. All are narrow lanes, with blind bends where traffic can't easily pass. This part of the village is not suitable for increased traffic. Neither School Lane or Crow Lane have passing places and inevitably Foxden Way will become the main access route. This is an extremely busy lane with no pedestrian provision used extensively by dog walkers, pedestrians, families with buggies, cyclists, horse riders etc not to mention farm vehicles. Great Bourton has limited amenities, transport services or accessible shops. Use of a car is essential and traffic will definitely be increased in order to access basic necessities. Additional parking beyond the proposed development is non existent and parking on these lanes is dangerous. I believe Great Bourton is designated a Category B village with permissible minor development only allowed within the built up sections of the village and this proposal does not meet that criteria."/>
