Comments	<input type="text" value="We as a family with young children object to this planning proposal as we are frequent dog walkers and cyclists along School Lane and into Foxden Way and believe the extra traffic caused by the development would increase the risk to our safety. When walking along School Lane especially, we often already have to stand on the bank to allow the traffic to pass and this development would only increase this. There is sufficient affordable housing within the Garners Field development, plus the two new estates - Hanwell View and Cherry Fields along the Southam Road are close enough to provide more affordable housing, further reducing the need for any more in Great Bourton. New housing developments do not factor in enough parking and therefore this would increase the parking on lanes around the proposed site."/>
