Comments	<input type="text" value="The proposed development will generate significant additional traffic in Foxden Way. This is a narrow lane used by pedestrians, cyclists, dog walkers and equestrians as well as existing vehicle traffic. The additional traffic created by this development will increase the risk of harm to people walking in the lane. Rain water run-off in Crow Lane down the hill has increased significantly during periods of heavy rain since the recent developments of the adjoining sites and this proposed development is likely to add to the problem. The development should not be permitted."/>
