Good afternoon

I wish to object to the houses being built at land west of Foxden Way Great Bourton I walk from Little Bourton to Great Bourton at least twice a day . Firstly the speed limit is wrong the cars travel way to fast . We have lots of tractors and farm machinery along This road to . I pass so many people along Foxden Way every day who have motability scooters ,elderly people taking a stroll , people walking there dogs , children riding there bikes with there family's . The amount of traffic along the road is more than enough . To have another 9 houses probably 18 more cars along that road is an accident waiting to happen .

Cars will be parked on local lanes . Most of this traffic will cut through Little Bourton via Foxden Way , Spring Lane and Chapel Lane . Why spoil our villages do we really need

9 affordable houses there is very few employment opportunities and no suitable transport not forgetting the extra traffic .
