Subject: Planning App reference 21/00922/OUT

Dear Planning Manager.

I am objecting to houses being built with reference to the above planning application.

During the time that I have lived here in Little Bourton, "Foxden Way" has been somewhere that I have walked my dogs every day of the week, and I have enjoyed seeing the diversity of wildlife, which have made their homes in the hedges, fields and beyond.

Over the last year there has been a significant amount of people taking their permitted exercise, along this "single track road". The amount of traffic being less, due to Covid restrictions, have meant that wildlife have increased and many have returned, much to the delight of us walkers.

The "Foxden Way" is used daily by so many, either walking dogs, riding horses or parents taking small children on a safe walk.

I feel that with more houses being built along this delightful quiet lane, it would be something that would put the people that enjoy this lane at risk, from a considerable amount of traffic, and spoil the enjoyment of seeing wildlife. The Covid has caused so many people to experience fear and mental health issues, that they do not need their health walking to be taken from them.

Please do not take this beautiful area and put bricks and mortar on it.

A concerned resident.
