When is the greed going to stop? When Banbury has finally merged with the villages and there is no land or countryside left? Is the council ever going to protect its land? or the living conditions of its constituents? or the animals and Wildlife who reside in out countryside. Allowing this building work to commence will kill the boundary of the village. Kill the quiet of a single track road used for walkers, runners, bikers, dogwalkers and children. Bringing in more vehicles to narrow streets, light pollution and ongoing building work to residents who have been plaqued by noise and disruption for the past 3 years. If the council agree to this build you will slowly be destroying your biggest assets which is the Oxfordshire countryside and communities within these. You are losing faith of the people who have be quardians of these communities for many years, as it seems that your focus is greed and fast money. Building outside of the boundary of the village will open the village to relentless more attempts to build, where we will be swallowed up by the ever expanding Banbury. The primary school is over subscribed and the small country lanes can not cope with the busy traffic at the moment let alone with more buildings to come. Foxden way is a beautiful connecting road between two villages, which will be ruined by the access to the house. Garners filed has only be completed in the village. do you not think we have met our auota for new housing in our small community? please stop selling our land to developers who do not care about the people and only the weight of their pockets. Protect out countryside, protect our community.
