Ref: Planning Application 21/00922/OUT

Dear Sir,

I would like to **object** to the above application and provide the following comments:

1. There are no pavements or walkways between Little Bourton and Great Bourton or down the main Southam Road to link up with the Little Bourton – Banbury Causeway.
2. Cars cannot pass side-by-side on Foxden Way, they have to go up on the grass banking which pedestrians with or without prams, pushchairs, small children, dogs and horses also have to do.
3. School Lane is a far bigger problem. In the last 12 years the verges have been worn back by the very large vehicles by between 20cm and 25cm (8-10 inches). It's a single track road: when cars, vans, lorries and farm vehicles meet, one of them has to reverse so they end up either in the walls, hedges, or my driveway as its quite large - but it's certainly not for public use.
4. We have two buses per week: Thursday and Saturday which allows about 2 hours over lunchtime in town.
5. As we have seen on other builds, once halfway through, the builders apply (or not) to change the plans for bigger/taller (never smaller) properties.

These are my concerns and why I strongly **object** to this planning application. I would ask you to consider my objections.

Yours faithfully

Pauline Wypior
