<b>Comments</b>	<p>Please see my previous letter of objection, submitted on-line on 26/04/2021. All of the original comments still stand. In addition, I feel that: The proposed waste management system is unsafe and inadequate - discharging waste into the current ditch will cause issues when it rains, as Foxden Way is already prone to flooding. The development would have an adverse effect on local wildlife. The development would seriously impact on the rural nature of the two villages and the connecting road - Foxden Way, which is valued by the locally community for walking and cycling. Public transport services are very limited to the villages of Great &amp; Little Bourton, and not suitable for supporting any new developments. A significant amount of traffic enters Little Bourton to travel to Great Bourton and beyond, where there are small roads with blind bends. The initial application was for 9 properties on a larger plot of land, this application has halved the plot size with the same number of properties, therefore if this proposed development were to be approved, no doubt a further application would be submitted for the other half of the original plot. In summary, I strongly object to this proposed development for the reasons above and those outlined in my previous letter of objection. I am disappointed that I have heard about this revised application from other residents rather than being informed by Cherwell District Council ... I have also checked my spam folder.</p>
