#### 5. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

This application is seeking planning permission for the erection of a 15m x 25m (375 sqm) agricultural storage barn with a ridge height of 7.2m. Since the summer of 2019 we have been growing lavender plants on our 5.75 hectare field. As there is no barn on the site, there is no storage for our machinery and equipment which we need to operate the site effectively. The requirement of the barn would ensure a safe, secure and weather-proof store for all our equipment.

We would also like to begin an annual harvest to produce lavender oil. Once harvested, there is a very small window in which to distil the lavender to ensure a high-quality oil is extracted and so we would also like to install a still within the barn to facilitate this process too.

Officers are satisfied that<br>the barn would serve a functional purpose and that it is acceptable in principle and compliant with saved Policy AG2 of the CLP 1996 and relevant paragraphs<br>of the NPPF.<br>* Officers note that this development would otherwise be granted via the prior approval process if it was not within 3km of an aerodrome. Shenington Gliding<br>Club is c.2.5km away from the site, to the north of Epwell village. Given this distance and its scale, the building as proposed is not considered to affect the<br>gliding club. Therefore, an application for planning permission would not be refused for this reason.<br>* Guidance was provided regarding the position of the barn. We have taken this advice and have repositioned the barn.<br>* The design, scale and proposed materials are all considered typical of an agricultural structure, proportionate to the proposed functionality of the building and<br>this context. |   |   |                                |  |  |

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
