| Comments | I object to the plan proposed for Hatch End. We live in a rural community surrounded by several working farms all have to access their fields and livestock. The farmers have large vehicles that need to move freely. We also have many horses that are exercised regularly with great respect afforded by local drivers. The roads into and around the village are very narrow, made more so by residents' cars. The S4 bus only just gets through. We have a primary school and day care within yards of the proposed development that will be of great concern to all regarding safety. The volume of traffic during and post construction is a primary worry. The demographic of the area must be well known to the council. With that in mind those who live here do so because of the unspoilt nature of our community. |
