Comments	<input type="text" value="The proposed development will have fossil fuel burning cars racing around a number of racetracks in close proximity to residential buildings, this does not fall in line with the Cherwell Local Plan B.3. Policies for Ensuring Sustainable Development. It will be detrimental to the health and wellbeing of local residents. On top of the air impact there will also be a significant noise impact created by this proposal, which will not be easily mitigated as the business will not know the volume of the participating vehicles until they have already been on the track."/>
