Comments	<input type="text" value="When Bicester Heritage (now Bicester Motion) bought the site it was on the understanding that they would preserve character of the site and the green runway. Those of us who moved to the area knew there was an airfield serving gliders and occasional light aircraft and it caused little disturbance. Since then the gliding club has been forced out, and they are proposing substantially large building developments not inline with the historic nature of the site (hardly any better than some other warehousing) and are proposing turning the perimeter road to the air field into a race track for cars which is CONSIDERABLY more noise polluting in a built up area than the air craft."/>
