Comments	<input type="text" value="We object to this application totally due to the noise disruption and effect on the wildlife and pollution. We have experience this recently and on other occasions when Bicester Heritage have organised events of this nature where the noise level is unacceptable. Bicester Heritage have no interest in our needs and deem these events reasonable. We believe this disruption will be on most days and have recently found out they are hosting Carfest this August over 3 days and nights with loud music and car exhibitions etc. No one from the site has been bothered to advise us of this event. We read it in the local press. It will be the same when these racing tracks are allowed. We would also point out the traffic disruption will be unacceptable. It is bad enough at the weekends now so this would be totally horrendous for us long suffering residents. We would appreciate advice of the date when this application is to be heard to enable our valid comments to be heard."/>
