Comments	<input type="text" value="As we live in very close proximity to the proposed site, we are very worried about the increased traffic noise and pollution. We are currently unable to use our garden in the summer on track days due to the horrendous noise of engines revving extremely loudly and the fumes from all the exhausts are dreadful, you cannot hold a normal conversation without shouting above the traffic noise! It certainly goes against the Bicester Eco Green Town policy, we worry about local residents and children having to inhale the traffic fumes and the deafening noise being the main issues. It really isn't a suitable venue being so close to residential housing. Also the roads surrounding Bicester Heritage would not be able to cope with the increased traffic adding to the noise and pollution!"/>
