| Type of Comment | Objection |
| Type | neighbour |
| Comments | <p>I write in response to the the above planning application made by Bicester Motion (formerly Bicester Heritage), living opposite this site my main concerns are as follows : - with an increase of visitors to the site this will surely have a detrimental affect on the noise and air pollution also not to mention the increase in traffic attending these events, I feel the current infrastructure in and around Bicester is not adequate to cope with these additional demands. I note that the 'noise assessment' paper does make the case that additional noise from track days etc. will be controlled and minimal, however currently I do not feel this is the case when events are held, and would be interested to know how in the future this will be adhered to. Having previously heard the views of a local councillor that "Bicester is all about tourism" I do feel that the local residents who live, work and pay community charge are overlooked, and made to feel insignificant when it comes to the needs and wants of what is a growing town.</p> |
