Comments	<p>Hi there, I am writing to express concern about the further development of Bicester Heritage. The building work to date has congested all the surrounding roads and roundabouts for weeks now. Further disruption to the lives of local people should not be tolerated by Cherwell council. The noise and air pollution from this site have already increased considerably and further expansion would worsen this (all whilst we are facing a pending climate crisis). Encouraging old, inefficient petrol vehicles to gather en masse in our town is a worrying thing to do. The noise from planes and cars is also a disruption to the personal lives of local residents, many of whom have lived in this area long before this business arrived. The only people who stand to gain from this development are the owners of the private company, whose profits are being prioritised ahead of the well-being of residents of Caversfield, Southwold, Bure Park, Launton and the wider Bicester area. Exactly as the Bicester Village Outlet has grown over the years to attract international tourist attention, this appears to be heading in the same direction. Drastic restructuring of the roads surrounding it led to many months of severe traffic. Thank you in advance for your time, I hope this will be taken into consideration.</p>
