Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="As a resident of the Caversfield area extremely close to the perimeter of the air field I object of the submission of this application and my reasons are as follows : The following application will bring massive loads of traffic to a small and usually quiet part of Bicester, the air pollution and noise pollution will be significant on a daily basis if they was to be granted permission!! I my self suffer from asthma and this will significantly increase my symptoms of asthma. The noise pollution on not just the building of a race track by the use of a track is also of concern this! judging by the contractors who done the road update on the skimmingdish lane roundabout the amount of disruption not to mention the 2 tonne of topsoil they have left at the side of the road these proposed works will on I bring misery to the residents of Caversfield. I believe also that tis area of the country should be left as it is as it hold such significant historical importance to world heritage and should respected as it deserves more, than just being tarmaced so the elite can race their expensive cars around !!!!"/>
