<b>Comments</b>	<input type="text" value="We have lived in Bicester all of our lives and in Caversfield for the last twenty five years. Now that we have retired we were looking forward to enjoying time in our garden. During the last few years we have noticed an increase in the noise of vehicles on the former airfield racing around the track with a lot of revving engines and screeching brakes. Apparently this is vehicles being 'tested' although it sounds remarkably like racing! We do not enjoy this but have had to accept it. However it appears from the planning application that new tracks are to be constructed on the site so inevitably the level of noise and subsequent pollution is going to be detrimental to our environment. For someone who already suffers with asthma the increase in pollution is going to have a very bad effect. The increased volume of traffic bringing visitors to the site is going to impact our day to day lives significantly. Has anyone given any thought to how local residents, some only a few hundred yards away, will be impacted by this application?"/>
